UNFORTUNATE INCIDENT AT HANKOW.

.An unfortunate incident occurred at the In Chee Men at 11 p.m. last night, the "Hankow News" of 4th inst. says. Three German sailors came in rickeless from the French Concession and one of them paid Wharf. his man 20 cts. which was meant to be payment for the three, but the coolies being not satisfied created a disturbance in which also a Russian sailor was mixed up. During the row several shots were fired from an adjacent house by which three Chinese were wounded, two of them only slightly while the wound of the third one is of a more serious nature. We understand that the man who fired the make a shots was Mr Huntze in the employ of Messrs Carlowitz and that an inquiry as to he motire is being held by the German

The following New York disputch is taken from a London paper of the 17th

It has been left for an English girl, Miss Jessie Halliday, of Harrow, an artist and Suffragette, to show her American sisters how unconventional a wedding can be.

She was married yesterday to Mr Edmund Trowleridge Dana, grandson of the poet Longfellow, in the garden of the poet's house at Cambridge, Massachuectte. Not only did she dispense with a church ceremony, preferring to be married in the open sir, but also neither clergyman. bridal veil, orange blossoms, bridesmaids, nor best man graced the proceeding and no honeymoon is to follow.

The service, which lasted two minutes, was conducted by a justice of the peace, and the brief ritual was the work of the bride Lerself. Instead of having a prayerhook, the justice of the peace, a Boston lawyer named Mr Edmund M. Parker, lawyer named Mr Edmund M. Parker, Iron-mongery, Wine and Spirits.

HEAT PROSTRATION.

ITS TREATMENT AND CURE

EXPOSURE to heat may cause faintness or exhaustion, or may produce still more serious effects on the brain and nervous system, including excitement, unconsciousness, and, if very severe, death from asphyxia.

In the event of an attack, the sufferer should be removed to the shade, his tight clothing loosened and cold water applied the head. As soon as possible, he should be taken home, and if the face be flushed and the skin hot, cold water and ice, if it can be obtained, should be applied over the though it was blowing fresh from the head and body and medical aid should be sought. These instructions are based the writing of the great authority on pres rvation at life in India, Sir Joseph Fayrer, but they are, of course, the mores' outline of what should be done. their prompt carrying out may save life, and they should, therefor, be kept prominently in mind by overyone to be made uso of when necessary.

After the imm diate results of exposure have been counteracted, ruestion of diet on which the maliftenance of the authorer's life and health depends is The the bridge deck, and in the middle of the the one which demands consideration. is obvious that when weakened, as the natural forces are, the stomach and digestive organs generally are in no condition to deal with the ordinary articles of diet, many of which impose a tax on the digestion. The food should, therefore, be of so as to put the least possible strain on the I 12-Bore Single Barrel Fowling Piece digestive organs. At the same time, the diet should be as revitalising and restorative as possible.

THE QUICKEST RESTORATIVE. It needs no great knowledge of dietetics to appreciate the fact that relatively few articles combine these two necessary and important qualities. One, however, does fulfil these two requirements in a supremely advantageous manner. This is Sant You. Composed of the body-building part of the purest milk, chemically combined with that salt of phosphorus which is found in the nervous system, it is one of the blandestas it is the most nutritious-revitalising and reinvigorating foods known to Science. Its use is, in many cases, followed by such a sensation of well-being that a well-known writer has described it in the words, "Almost immediately after taking it I feel as though a stream of liquid life has

been poured into me. Even those people who do not re-act so rapidly to its benefits very soon experience a sensation of strength and revitalization man to let me steer. He shook his head. which are particularly grarifying after the feeling of utter prostration and lack of tone which are so characteristic of the results of heat. In this connection, the that I was accounted to be a good boat following letter from Mr Thomas Lynn sailor and had for many years ruced my Calcutta, will be read with particular own boat with some success. The helmsinterest, for it shows how Sanarogen enables even those who have to fight bodily forces are weakened by disease and said, "Tell the Great Chief I want derive immediate health and strength from to win this race!" Thus was my pride | the preparation.

AND THE SUREST, TOO. Mr Lynn writes :- "I was a brokendown wreck of a man, as far as health goes, and had been a martyr to Malaria for four years, being constantly in the hands of the gallant citizens well. dectors, and becoming weaker and weaker. with the natural run-down condition and it accompaniments, brain fag, nervousness and dyspersia. Everybody advised me to go to the hills for some months; but this recommended by a friend, and 1 am delighted to say that only two bottles have made an extraordinary difference for the bettersuch an invigorator of life is to people out in the tropics who have the awful heat to fight against. This is verily the land of break-downs, hence there are many thousands who appreciate what Sanatogen

has placed within their reach-' A new leaso Write for a copy of a most interesting booklet, "The Art of Living," by Dr. Andrew Wilson, which will be sent free to all mentioning this paper on application to A. Wulfing and Co., 6, Kiuking Road,

"We read too that several of the banks in Tang Lung and other streets are closing their businesses because there is not enough business to warrant the proprietors, in view of their heavy expenses, to keep their houses open. The consequence will be that many people will be thrown out of work, who will drift hither and thither till perforce they will be compelled to join the ranks, of the "unemployed." The general dislocation of business is such that bills of exchange, and other methods of conveying money from one part of the province to another, and from one province , another, are little in demand, "hip. and so the bankers have little to do." By this measure plural | ping. voting would be abelished, 525,000 plural votes and 49,614 University votes being suppressed. The penalty for guiltily voting in more than one constituency is £200 or a year's imprisonment .. Only vagrants, and those pappers, criminals, and aliens already debarred, are prevented from voting. On 17th ulto., Kajyama, "the Japanese ambidex rous caligraphist," troduced himself at his first appearance England to a private audience at the Palace Theatro. Mr Kajyama, armed with sticks of chalk which he uses with a reckless prodigality, does surprising things on the blackboard with the English alphabet. He writes backwards and upside down at the same time, and what seem meaningless scrawls turn out to be homely, averyday words when the blackboard is turned upside down. All sorts of words were sent up from the audience, and these were faithfully reproduced at sight; But one of them was too much even for Mr Kajyama. "Before I can write upside down and Tango Maru, L. H.K. for S'pore July China, L. Koba for Y'hama July 17. reduce the number of members to 60 , is backwards," he said plaintively, "I have intended to come into force on June 1. got to be able to read and write it right 1914, or carlier by Order in Conneil. No side up forward," and then slowly plan of redistribution is included, and it is he wrote out the word that had proved too much for him. It was Dichlorotetrabromobydroxybenzens. After some preliminary study Mr Kajyama wrote it Arcadia, A. Bombay from Colombo July 7. backwards and upside down.

With regard to foreign going shipping, the largest proportionate loss has been to the British flag. The greater part, if not the whole, of the loss may, however, be accounted for by the transference of the China Manila steamers Rubi and Zofiro from the British to the American flag! things are so different! It is to be regretted that the lack of a customs staff at Hongkong renders it impossible to arrive at an estimate of the actual amount of cargo landed or transhipped in the Colony and the bottoms in which it was carried.

although the figures fall somewhat short of the record year 1910, there is still little room for pessimism over Hongkong as a shipping port, whatever may be its outlook as a centre of tranship. ment for the whole of China. In spite of the complaints that have been made that ships that formerly discharged their cargoes Kuala Lumpur, F.M.S. there now merely use it as a port of call, without landing a ton of cargo the hungry warehouses are waiting to receive, it may be well to remember that even the use the harbour as a port of call for purposes of bunkering is of vast assistance to the revenue of the Colony, and Hongkong might well put forth more strenuous efforts, by making its barbour more secure to a tract a greater portion of the tonnage that would otherwise pass by its doors on its way to the North.

Each of these ships make about six trips a year, calling at Hongkong outward, and, reckoning their entrances and clearances, this fleet alone would account for over 400,000 extra tons of Japanese shipping passing through Hongkong. America and Europe as in China and Japan. But I have always understood that "gentlemen" are unvariable, be they from Great Britain, the Polar Regions, Land of Sinim or Timbuctoo. I therefore pursued my enquiries further, and learnt the following: On the last day of February this year, certain Chinese soldiers got out of hand, and indulged in looting and burning some Chinese shops, but left the Legation Quarter severely Fowls, Canten, -Kai slone. that many Liberals, who cannot forget that they are still Englishmen, resent the constant flourish of M REDMOND's big whip. There is, too a good deal of quiet sympathy with account of Sir Henry May's departure Ulster. The English Liberal is uncomfortable about handing over people of his own race and religion to the tender mercies of a Nationalist majority, and he feels that, if Home Rule is to come, here is clearly a case for special treatment. Sir EDWARD GREY and Mr CHURCHILL both admitted as much. But when it comes to the point we find Mr BIRRELL (under whose gentle rule there have been eight hundred cases of shooting in Ireland during three years) declaring for the Bill and nothing but the Bill: The amendment has only been rejected by the force of Nationalist votes. Mr Repmond's phalanx of eighty more than accounts for the unijority of sixty-nine. Whatever may result from the lubbies, Ulster still controls situation. The sturdy race which has kept its individuality for three centuries declines on any terms to be subject to a domination it abhors, and any attempt to coerce it must end in miscrable failure. The Government's majority has declined beyond precedent on the mere contemplation of the | that the net profits amount to jo,095,993.71 ugly possibilities involved. It will
